## Master of Science in Medical Biology

### Examination programme 2017-2018

#### MODULE 1
**Theoretical part**
- Final mean: Average weighted by coefficients of the grades for all the courses

#### MODULE 2
**Practical part: First Step Project**
- Final mean: Arithmetic average of the grades for the practical assessments

**Success conditions for modules 1 and 2**
- Module 1: final mean $\geq 4.0$
- Module 2: final mean $\geq 4.0$ and no more than one grade under 4.0

#### MODULE 3
**Choice of one field of specialisation among the four proposed:**
- Immunology and Cancer
- Metabolism and Human Health
- Neuroscience
- Pharmacology and Toxicology

**Theoretical part**
- Final mean: Arithmetic average of the theoretical course assessment grades

**Practical part**
- Final mean: Arithmetic average of the practical course assessment grades

**Success conditions for module 3**
- Theoretical and practical final mean $\geq 4.0$

#### MODULE 4
**Master Thesis**
- Written report / oral defence / practical research work

**Success conditions for module 4**
- Arithmetic average of three grades on the Master Thesis $\geq 4.0$
